Re: Request for Certificate of Correction

Consideration has been given your request for the issuance of a certificate of correction for the above-identified patent under the provisions of Rule 1.322.

Respecting the alleged error(s) in Item (75), after inspection of the application, it is revealed that the error is not on the part of the Patent and Trademark Office, although the certificate of correction was forwarded to the Certificate of Corrections Branch after August 31, 2005, the request was not reviewed by a Certificate of Corrections employee – until Nov. 7, 2005. The certificate request forwarded by the Supervisory Patent Examiner requires an appropriate fee of \$100.00, due to the applicant's error. Since the certificate request forwarded by the SPE had not been processed - your certificate request is void and non-applicable. Therefore, being no fault of the Patent and Trademark Office, no correction(s) is/are in order here under United States Codes (U.S.C.) 254 or 255 and the Code of Federal Regulation (C.F.R.) 1.322 or 1.323).

In view of the foregoing, your request in this matter is hereby denied.

For further consideration, simply submit the appropriate \$100.00 fee required for the Certificate of Correction, to cover the applicant's error, and the file will be processed for issuance of the certificate of correction.

*Note: This is a general hint, which may decrease the processing time of your request. If you obtain data that clearly shows the attorney/applicant is not in error, simply include proving/supporting documentation and associated post card receipts, along with your certificate of correction or reconsideration via postal mail, not by fax. If you do not have supporting documentation that clearly shows the attorney/applicant is not in error and verifies that the PTO is in error regarding the matter in your request - then, the appropriate fee of \$100.00 with your "Certificate of Correction" or "Reconsideration Certificate of Correction" - will be necessary. Without supporting documentation, depending upon the matter in your request, it is possible - that in addition, a petition with its appropriate fee of \$130.00 may be necessary, or the request may be denied. Please be advised that - "identification of the exact point of error by reference to column and line number of the printed patent" provides clarity for processing a request. Please see the MPEP for further instruction and understanding.*
